Rules for the levy of fees for work done by the Industrial Engineering Branch.

Fort St. George, October 4, 1940
(G.O. No. 2340, Development).

No. 66.

Subject to the rules hereinafter mentioned and as far as it can, the Department of Industries and Commerce gives general information and advice, assists in the preparation of plans and in the purchase and erection of machinery, undertakes the systematic inspection of installations and places at the disposal of the public the following plant.—

(i) Hand-boring apparatus and bore-hole pumps.
(ii) Power drills
(iii) Portable pumping plant.
(iv) Blasting apparatus.
(v) Sugarcane-crushing mills.

All applications for the loan of the above plant should be in the prescribed form shown in Appendix A.

1. The plant will be hired out to the following classes of users.—

Class I.—(a) Agriculturists—solely for bona fide agricultural purposes.

(b) Small scale industrialists who will be treated on the same footing as agriculturists.

(c) All promoters of water-supply schemes intended to serve the public, or individuals, except those in class III.

(d) The Labour, Co-operative and other departments of Government.

Class II.—Co-operative societies, school authorities, local boards, municipalities and other public authorities for purposes other than class I (c).

Class III.—Large scale industrialists, companies or corporations and railway administration.

NOTE 1.—All industrial establishments employing 250 workmen and over or 1,000 H.P. and over will be deemed to be "Large scale Industrialists."

NOTE 2.—The order of preference shall in each case be decided by the Assistant Industrial Engineer and lent to those on special duty as Industrial Engineer over 4 to recruit to power drills, in the case of which the Industrial Engineer shall decide the priority subject to the approval of the Director of Industries and Commerce.

The Assistant Industrial Engineer shall maintain a list of bona fide applicants who have registered their applications on payment of the transport fee and caution deposit prescribed under the rules.

2 The services of the department are offered subject to the following general conditions:—

(i) All fees or other charges leviable under the rules governing departmental assistance are strictly payable in advance unless otherwise ordered by the Director of Industries and Commerce.

NOTE 1.—Services rendered to co-operative societies will be charged for only at half the usual rates. But transport charges will be recovered in full according to the rates prescribed in the rules unless the transport is undertaken by the societies themselves at their own expense.

NOTE 2.—In exceptional cases where the levy of fees or charges or other claims is likely to operate as an undue burden on the applicants, the Director of Industries and Commerce may, at his discretion, waive or remit such fees or charges wholly or in part subject to the condition that a report be made to Government whenever a charge other than a hiring fee or fee for service rendered under sections I, II and III is required by the Director. This concession is not applicable to large local schemes such as district boards and municipalities, or those included in class III of rule I above.

(ii) All fees and other charges levied under these rules shall be credited to Government.

(iii) Refunds of fees will not generally be made, except as provided in note 2 to rule 2, but in the case of advances, any surplus which may remain unspent after the work is completed shall be returned.

(iv) Though every effort will be made to meet the reasonable demands of the public as promptly as possible, the department offers no guarantee whatever in respect of time.

(v) The acceptance of the services of the department implies the acceptance of the general rules and conditions laid down in this notification.

(vi) Parties who have hired departmental plants will not in any circumstances be allowed to sublet them.

(vii) The Director or the Industrial Engineer may, if he considers it necessary in public interests, order the removal of any departmental plant hired out and withdraw the services of the departmental staff at any stage of the work without assigning reasons.

(viii) The hiring of a departmental plant by an applicant carries with it the responsibility for keeping it in reasonably safe custody and for making good any loss to Government caused by the applicant's negligence. So long as the departmental tools and plant are in the custody of the applicant, the departmental staff shall have the right of entry into the premises for purposes of inspection.

(ix) The Director may, at his discretion, lease out any portion of the plant, i.e., either an engine or a pump or any other part of a departmental apparatus or unit for a specific purpose and for a special fee to be fixed on each occasion separately.

3. No fees will be levied for services rendered to other departments of Government except to a commercial department or a Government commercial undertaking or a rural water-supply scheme undertaken with the help of the departmental sets. An acknowledgment of the value of such services will, however, be obtained from the department concerned. But the department concerned should meet the cost of transport of the tools and plant and provide the labour and materials required. The cost of lining pipes and other tools left in the borehole, if any, will be recovered by book adjustment.

SECTION I.

Information and advice.

4. General information and advice are given free of charge so far as the information is available and advice is given without local inspection.

5. In cases where information and advice can be given only after local inspection, such inspection will be arranged for on payment of a fee of Rs. 10 for classes I and II and Rs. 25 for class III mentioned in rule 1. No such fee will be levied for local inspections in the course of enquiries into applications for loans under the Special Loan Rules.

6. When such an inspection is made in connexion with the installation of plant which the applicant proposes to purchase or erect without the aid of the department, the inspection report will include a statement of the class of plant required and a sketch.

7. In cases where an applicant desires that the plant should be purchased or erected by the department, charges will be levied at rates shown in section II—"Purchase and erection of machinery."

SECTION II.

Purchase and erection of machinery.

8 The department will, when so desired, undertake the ordering of plant, the preparation of plans and the supervision of the erection of machinery. In such cases a deposit of not less than Rs. 200 or approximately 15 per cent of the value of the plant, whichever is greater, must be made. For the purposes of calculating fees, the value of second-hand plant will be taken to be the value actually paid or the value estimated by the Industrial Engineer whichever is greater.

The fee charged for this service is—

(a) Two per cent on actual cost of machinery for classes I and II subject to a minimum of Rs. 10, and five per cent for class III subject to a minimum of Rs 25;

(b) Inspection fee of Rs. 10 for classes I and II and Rs. 25 for class III where no inspection of the site has actually to be made unless such a fee has previously been paid on account of the same scheme; and

(c) An additional fee of Rs. 10 for all classes, if the preparation of drawings or blue prints is actually involved.

If the plant is to cost more than Rs 10,000, special terms will be arranged.

9. If an applicant wishes to abandon his scheme after an inspection has been made and before any plant has been ordered, all fees and deposits paid will be refunded except the inspection fee and if blue prints have been prepared, the fee of Rs. 10 for the preparation of plans.

10. The department will take no responsibility for any losses arising from an applicant changing his mind after orders have been placed or for any accidents to the labour supplied by, or damage to the properties of, the applicants in the course of erection.

11 All materials and labour must be found by the applicant.

12. No plans will be prepared and no plant will be ordered unless the plant is to be erected by the supplying firm or its erection is to be supervised by the department.

13 Individuals who have already purchased plant may apply for the supervision of its erection by the department on the same terms as above. The Director, however, reserves the right of causing an inspection of the plant to be made on payment of the prescribed fee, and notwithstanding such inspection, the Director may decline to sanction departmental assistance, if he considers the plant unsuitable, badly designed or in any other way open to objection.

14 When the services of the Engineering staff of the department are required for the execution of a definite work other than mere advice or inspection or the original erection of plant, such services will be charged for at the following daily rates:—

For an Assistant Industrial Engineer	Rs. 15 per day.
For a supervisor or mechanic in charge.	Rs. 10 for the first day *plus* Rs. 8 for every subsequent day.
For a mechanic	Rs. 7-8-0 for the first day plus Rs. 4 for every subsequent day.
For other subordinates .	Rs. 4 per day

If owing to causes for which the applicants are responsible there is any break in the continuity of the service, the fees chargeable for the first day, after resumption of the work will be Rs. 10 for a supervisor or mechanic in charge and Rs. 7-8-0 for a mechanic.

15. The Director reserves the right to refuse the services of the staff entirely or to charge fees at the daily rates prescribed in rule 14 if he finds that, in the course of an erection or other work undertaken on the terms laid down in rule 8, the subordinate concerned has to be idle owing to delay in the supply of material or labour required for erection.

SECTION III.

Systematic inspection of installations.

15. The department will arrange for the systematic inspection of installations. Inspections will be of two kinds, viz., "routine inspections" made at the convenience of the departments and "special inspections" made on the urgent requisition of the applicant.

17. An initial fee of Rs 10 for classes I and II, and Rs 25 for class III will be levied, which will cover the cost of three routine inspections; but no refunds will be made, if the services of the department are not utilized. It will also cover the cost of special visits, in the case of not more than two sudden breakdowns per annum. Special inspections or visits in excess of those covered by the initial fee will be charged for at the rate of Rs 5 per visit for a mechanic and Rs. 7-8-0 for a supervisor or mechanic in charge. These inspections carry no financial responsibilities on the staff for any breakdowns and are subject to the exigencies of the public service.

18. No installation will be inspected unless the compounding fee or special fee is paid in advance. On the expiry of the period for which the compounding fee has been paid, a notice will be issued by the department in cases where application has not been received for the continuance of the departmental inspection and the prescribed compounding fee has not been remitted.

19 In addition to the fees prescribed in rule 17, the applicant will be required to supply material and labour necessary for the repair work to be carried out by the department.

20 Systematic inspection of a plant will be undertaken only after the plant has been examined and found to be in good condition. If it is not found in good condition, the applicant will be informed as to the repairs required. Only on completion of such repairs will systematic inspection be undertaken. If the applicant desires that the repairs should be executed under departmental supervision, such supervision will be arranged on payment of fees prescribed in rule 14.

21 The Director may without assigning any reason, refuse to undertake systematic inspection of any plant or installation.

SECTION IV.

Boring plant—Hand-boring apparatus and power drills.

22 Enquiries concerning hand-boring apparatus and power drills should be addressed in the first instance to the local mechanic in charge or the Supervisor of Industries, or to the local Assistant Industrial Engineer, or to the Industrial Engineer, Post Box 432, Chepauk, Madras.

23 The hand-boring tools in the possession of the department will generally drill to a depth not exceeding 300 feet, but are unsuitable for boring in hard rock; and power drills can drill up to 500 feet in any strata. Where deeper borings or borings in hard rock are required, a power drill should be used. The department cannot guarantee the success of any boring whether put down by hand or power drill or guarantee whether fresh or brackish water will be tapped.

Subject to the approval of the Industrial Engineer, the Assistant Industrial Engineer may stop any boring work at any stage if it is found that the stratum bored through is such as to endanger the safety of the set, or if it is found that the applicant is interfering with the work of the staff or misusing the plant. In all cases, however, when a boring has reached a depth of 150 feet in the case of a hand-boring set and 350 feet in the case of a power drill, the Assistant Industrial Engineer shall stop the work until an indemnity bond is executed by the party agreeing to indemnify the department for any loss or damage. The Director may then at his discretion, permit the continuance of the work under such conditions as he may impose. In the case of Government departments and local authorities, however, it will be sufficient to obtain a formal letter of guarantee in the place of the aforesaid bond. But in the case of rural water-supply schemes financed from Provincial funds or from the Government of India Rural Reconstruction Grant, the letter of guarantee may be dispensed with, provided the Collectors in charge of those schemes invariably consult the officers of the Industries department, when borings are taken beyond a depth of 150 feet.

24 Applications for borings will be registered on payment of the transport fee and a caution deposit mentioned below:—

Applications from classes I and II—Transport fee of Rs. 7-8-0 and a caution deposit of Rs. 25 for a hand-boring set and transport fee of Rs. 75 and a caution deposit of Rs. 100 for a power drill.

Applications from class III—Transport fee of Rs 25 and a caution deposit of Rs 100 for a hand-boring set, and transport fee of Rs. 125 and a caution deposit of Rs. 500 for a power drill.

The advance payment of transport fee will, however, be waived if the applicant signifies in his application that he is prepared to transport the set himself at his own expense within five days of the date of offer. The caution deposit will be refunded after completion of the work after deducting any dues from the party to the department for the supply of labour or materials for fishing operations or for the removal of the plant. No portion of the caution deposit shall be set off for daily hire charges in the course of the work.

25 The order in which the registered applications will be attended to will be decided by the Assistant Industrial Engineer in the case of hand-boring sets and by the Industrial Engineer with the approval of the Director of Industries and Commerce in the case of power drills. The applicants will be duly informed when the boring plant can be placed at their disposal. If the plant is not used after it has been brought to the site, the transport fee paid, if any, will be forfeited, but the caution deposit will be returned after recovering any loss sustained by the department.

26. The transport fee is intended to cover the cost of the carriage of the tools to the site proposed for boring. No part of it will be returned to the applicant whatever may be the cost of transport in any particular case, nor on the other hand will any further charge be made should the cost of transport exceed the prescribed fee.

27. For a hand-boring set the hire charge is Rs 1-12-0 a day for classes I and II and Rs. 9 a day for class III. For a power drill the hire charge is Rs. 6 per day for classes I and II and Rs. 20 per day for class III. This fee covers the hire of the tools and the salary of the staff in charge thereof. The applicant must, however, provide labour and materials necessary for operating the set.

28. The original deposit will not cover the daily hire charges which must be paid as advance as work proceeds. This advance must cover at least five days' hire. When it is exhausted, further advances of not less than five days' hire at a time should be paid at once. As borings will on no account be put down on credit, the work will be stopped and the tools removed immediately the advance is exhausted, unless further advances are paid.

29. On the completion of the boring, any sum still to the credit of the applicant will be returned. In the case of a boring conducted in a well the applicant should, within 48 hours of its completion or stoppage of work, supply labour to remove the set from the well. If he fails to do so, he will be liable for additional hire charge till such time as the set is finally removed from the well, and loaded into carts for removal. The caution deposit levied under rule 24 will be utilised towards this. If, however, there has been no delay in the supply of labour and there are no other dues to Government, the deposit will be refunded to the applicant.

30. Fees will be charged for the use of the boring tools for every day that they remain at the worksite and for the days during which the tools are kept idle on account of the exhaustion of advance, delay in the supply of labour or other avoidable causes. No fees will be charged for the time during which they may be kept idle on account of accident, heavy rain or other causes beyond the control of the applicant; nor will any fee be claimed for cessation of work on authorized holidays or local market (shandy) days.

In cases of accidents to tools, lining tubes or boreholes the applicant must however provide labour and materials necessary for operating the set to recover the tools or tubes. The Director may at his discretion waive the recovery of the cost involved in whole or in part in exceptional cases.

An applicant who has engaged a set may intimate his desire to stop work and the work shall be stopped.

31. The results of a boring will be communicated to the applicant who will be advised of the steps that he should take to utilise the water-supply available. The applicant must however provide labour and materials necessary to test the borehole. The apparatus by which the borehole is to be tested will be decided solely by the department. The department takes no responsibility in regard to the results of the boring and gives no guarantee regarding the continuance of the supply or the safety of the borehole.

32. In cases where artesian or sub-artesian water is met with, the lining tubes will, if the applicant so desires, be left in the borehole. The cost of the tubes must however be paid immediately on the completion of the borehole, otherwise the tubes will be pulled out before the set is dismantled. The labour required to remove the lining tubes and dismantle the set should in any case be provided by the applicant. In exceptional cases the Director may order the retention of the pipe for a period of three months from the date of removal of the set.

33. In the case of unsuccessful borings put down by hand drills for an applicant in class I (a) to (c), the hire, but no transport charges, paid by the applicant will be refunded after deducting the hire charges for the days on which the set remained idle owing to party's default such as non-supply of labour, non-payment of further hire advance, etc. In all such cases of unsuccessful borings, a notice shall be issued by the department to the party showing what refund of the advance and daily hire charges is admissible and stating that he may apply for it. An application for refund, received after three months from the date when the party received the notice, will be summarily rejected. Whether a boring is successful or not will be decided by the Director on the merits of each case and his decision will be final. A borehole which taps brackish or salt water will not be considered a failure and no refund will be made in such cases. This concession does not apply to power drills.

34. The Director may, without assigning any reason, decline to put down any boring and return to the applicant any sums that may have been paid by him.

SECTION V.

Pumping plant.

35. The engines in the possession of the department are capable of pumping from 150 to 325 gallons per minute on a total lift up to 50 feet. High speed testing engines will not be worked for more than four hours at a stretch or for more than eight hours during a day and night, viz., twenty-four hours. The latter part of this rule applies also to ordinary (crude oil) pumping sets.

36. Enquiries concerning pumping plant should be addressed either to the local mechanic in charge or the Supervisor of Industries, or to the local Assistant Industrial Engineer, or to the Industrial Engineer, Post Box No. 432, Chepauk, Madras.

37. No fees or advances will in the first instance, be demanded, but a register of applicants for the use of pumping engines will be maintained.

38. The order in which the registered applications will be attended to will be decided by the Assistant Industrial Engineer with reference to the locality, and applicants will be duly informed when a pumping plant can be placed at their disposal. Immediately on receipt of the notice, the applicant should pay a transport fee of Rs. 60 and an advance of Rs. 20 in the case of classes I and II. The transport fee and the advance will be Rs. 75 and Rs. 50 for applicants of class III. If the amount is not paid within five days after receipt of notice the application will be regarded as cancelled. The advance payment of transport fee will however be waived if the applicant signifies in his application that he is prepared to transport the plant himself at his expense within five days of the date of offer.

39. The department will ordinarily make arrangements to carry the plant to the site except in cases where the applicants undertake to transport the plant themselves within the specified time. The transport fee is intended to cover the cost of the carriage of the plant. No part of it will be returned to the applicant whatever may be the cost of transport in any particular case, but, on the other hand, no additional charge will be made should the cost of transport exceed the above fee. If the plant is not accepted when brought to the site, the transport fee will be forfeited.

40. The fee for the use of a pumping plant is Rs. 3 a day subject to a minimum of Rs. 9 for classes I and II and Rs. 10 a day subject to a minimum of Rs. 30 for class III. This fee covers the hire of the plant and the wages of the driver in charge thereof. All other charges connected with the work such as cost of labour, fuel, oil and other stores must be borne by the applicant.

41. The original advance covers the hire of the plant for three days. When it is exhausted, further advances of not less than three days' hire at a time should be paid at once. As pumping will on no account be done on credit, the work will be stopped and the plant removed immediately the advance is exhausted, unless further advances are duly paid.

42. On the completion of the pumping, any sum still to the credit of the applicant will be returned subject to the deduction of the minimum fee prescribed in rule 40.

43. Fees will be charged for the use of the pumping plant for every day that it remains at the worksite and for the days during which the pumping plant is kept idle on account of the exhaustion of advance, delay in supply of labour and fuel or other avoidable causes. No fees will be charged for the time during which it may be kept idle on account of accident, repair, heavy rain or other causes beyond the control of the applicants, nor will any fee be claimed for cessation of work on authorised holidays or local market (shandy) days.

In cases of accidents to engine or well, the applicant must however provide labour, etc., necessary to remove the plant from the well. The Director may at his discretion waive the recovery of the cost involved in exceptional cases.

Instructions to candidates appearing for the examinations to be held in 1941.

Candidates for University Examinations are required to observe the following instructions very carefully :—

1. Silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall *at least five minutes* before the time fixed for distributing the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each answer book. Failure to write their register numbers may involve the rejection of answer papers. They should also fill in the subject and the year on the outer cover of the answer book.

4. Candidates are not allowed to exceed the time assigned to a paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out, and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners, should they do so their answers will not be valued and their conduct will be reported to the Syndicate for disciplinary action.*

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, blotting pad, cardboard, manuscript, or paper of any description and from making use of any of those whether introduced into the room by themselves or by any one else, from communicating with or copying from each other; and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be summarily sent out of the room forthwith, and his conduct will be reported to the Registrar. Such a candidate stands the risk of having all his answer papers for the examination for which he has appeared rejected by the Syndicate and of being debarred from sitting for the University examinations for such period as the Syndicate may decide.

The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in Mathematics, Physics, Chemistry, Chemical Technology and Geography of the Intermediate, B.A., B.Sc., B.A. (Honours), B.Sc. 9. Candidates for examination in Science subjects shall submit their laboratory note books to the examiners concerned on the first day of the practical examination. Each of the candidates taking Botany as the main subject for B.Sc. Degree Examination must submit at the practical examination his laboratory note-book a collection of the named plants collected and preserved by himself and a record of the field work. *The candidates should get back the laboratory note-books at the close of the examination.*

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, *use only black ink* while answering their question papers.

11. Particular attention is requested to the instructions, regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer book themselves against the respective answer. *The number of each question as given in the printed paper should be noted both in the margin and in the centre of the page of the answer book just above the respective answer.* No separate books for rough working will be supplied to candidates. Papers must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. When candidates have finished writing their answers, and wish to give up their answer books at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.

13. Candidates sitting for the examinations at the different centres should apply to the Chief Superintendent of the respective centre for their hall tickets three days before the commencement of the respective examinations. *Any particulars noted as the hall ticket differing from those given in the application for the examinations should be immediately reported to the Chief Superintendent by the concerned candidate.*

It will not be permissible for candidates to sit for the examination at a centre other than that at which their names are registered without the special permission of the University. No permission for change of centre will be granted after the applications are registered.

Statistics—Crop—Gingelly—1940-41—Third Report

The average of the areas under gingelly in the Madras Province during the five years ending 1938-39 has represented 14·2 per cent of the total area under gingelly in India.

2. The area sown with gingelly up to 25th December 1940 is estimated at 558 300 acres. When compared with the area of 601·9·0 acres estimated for the corresponding period of last year, it reveals a decrease of 7·2 per cent. The area estimated for Coimbatore is the highest reported in recent years.

3. The estimated area in the same as that of last year in West Godavari, Cuddapah and Malabar. An increase in area is estimated in Vizagapatam, East Godavari (plus 13,000 acres), Kurnool,

Coimbatore, Trichinopoly and Tinnevelly and a decrease in area in the other districts of the Province, especially in Anantapur (—13,000 acres), Chingleput (—14,000 acres) and Salem (—23,000 acres) owing to want of timely sowing rains.

4. The main crop has been harvested except in the south. The yield is estimated to be above normal in Kurnool, normal in Visagapatam, East Godavari, Guntur, Cuddapah, Nellore, Salem, Coimbatore, Ramnad and South Kanara and below normal in the other districts, especially in South Arcot (20 per cent) Chingleput and Tinnevelly (75 per cent in each).

5. The seasonal factor for the Province as a whole works out to 94 per cent of the average as against 87 per cent for the corresponding period of last year. On this basis, the yield is estimated at 70,700 tons as against 69,400 tons for the corresponding period of last year, an increase of 1·9 per cent.

6. The wholesale price of gingelly per imperial maund of 82-2/7 lb (equivalent to 3,200 tolas) as reported from important markets on 6th January 1941 was Rs. 6-12-0 in Tinnevelly, Rs. 6-8-0 in Cocanada Rs. 5-7-0 in Cuddalore, Rs. 5-6-0 in Trichinopoly, Rs. 5-5-0 in Tuticorin, Rs. 5-1-0 in Rajahmundry, Rs. 6 in Vizianagaram, Rs. 5-12-0 in Salem, Rs. 5-3-0 in Visagapatam, and Rs. 5-3-0 in Ellore. Indian Limitation (Amendment) Bill—Circulated for eliciting opinion .. .. PAGE 1

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Bill of the Council of State has been circulated for the purpose of eliciting opinion. Any person or public body desiring to submit an opinion on the Bill should do so through the Provincial Government only and any opinion thereon which is submitted direct to the Legislative Department or to any other department of the Government of India will not be accepted.

[As introduced in the Council of State.]

A Bill to amend the Indian Limitation Act, IX of 1908

WHEREAS it is expedient to amend the Indian Limitation Act, IX of 1908, for a certain purpose; It is hereby enacted as follows :—

1. This Act may be called the Indian Limitation (Amendment) Act, 1940.

2. In section 20, sub-section (1), omit the words "as such" occurring after the word "paid."

3. Payments of interest or principal made before this Act and acknowledgment thereof appearing in the manner prescribed by the proviso to section 20 shall save limitation as if the words "as such" were never enacted in the section.

STATEMENT OF OBJECTS AND REASONS.

The decision of the Judicial Committee of the Privy Council in Rama Shah vs. Lal Chand, reported in A.I.R. 1940, P C 63, which places a strict interpretation on the words of section 20 of the Indian Limitation Act, has created considerable hardship. Endorsements of payments made by debtors towards a debt do not in all cases specify whether the payment is made towards interest as such or part of the principal. In practice, debtors also do not specify at the time of making payment whether the payment is made towards interest or principal. In many cases, the payments are made towards the debt or legacy due, and the mode of appropriation is left either to the creditor or is regulated in accordance with the course of business between the parties. If the decision of the Privy Council is allowed to stand, several promissory notes and bonds on which endorsements are made without specifying that the payment is made towards interest as such or principal would be held by courts to have become time-barred. It is, therefore, necessary to amend section 20 of the Indian Limitation Act in such a way as to give effect to the intention of the Legislature that a payment made towards a debt will have the effect of saving limitation, for all payments are intended to go either towards principal or interest or partly towards the one and partly towards the other, whether the endorsements so specify or not, provided the acknowledgment of payment appears in the hand writing of, or in a writing signed by, the person making the payment. But in order to save endorsements of payments made before the passing of this Act, it is necessary to give retrospective effect to this Act, and provision is accordingly made that the section shall be so read as the words "as such" never existed in the section
